PROFILE

Full Stack Developer fresher experienced in building **web and mobile applications**, handling frontend development with **React.js and React Native**, and integrating backend services through **REST APIs and authentication**.

EDUCATION

Indira Gandhi National Open University,

06/2023 – 06/2026 | New Delhi

Bachelor of Computer Applications

- Core subjects: Data Structures, DBMS, OS, Software Engineering
- Strong foundation in programming and application development

TECHNICAL SKILLS

Languages :, *JavaScript, c, c++*

Frontend Technologies :, *React js, Redux, Tailwind CSS, Responsive Design REST API, GSAP*

Backend Technologies :, *Node js, Express js, MongoDB*

Mobile Development :, *React Native, Expo*

Developer Tools :, *Git, GitHub, Vs Code, npm*

Core Competencies :, *Problem Solving, UI/UX, Design Thinking*

PROJECTS

Video Player App 📄, *React Native (Expo), expo-router*

- Created a mobile video player application using React Native and Expo
- Implemented core playback features such as play, pause, and video controls
- Ensured smooth video rendering and optimized performance for mobile devices
- Gained hands-on experience with media handling in mobile applications
- Strengthened understanding of Expo APIs and mobile performance considerations

Notes App 📄, *React mongodb express nodejs*

- Built a full-stack Notes application using **React.js, Node.js, Express.js, and MongoDB**
- Implemented RESTful APIs for creating, reading, updating, and deleting notes
- Integrated MongoDB database with backend
- Deployed backend on Render

Netflix Clone 📄, *React.js, tailwind css, React Router, Firebase*

- Built a Netflix-inspired web application using **React.js**
- Implemented **user authentication** (login/signup) to manage protected access
- Integrated movie data APIs to fetch and display dynamic content
- Added **trailer playback functionality**, allowing users to preview content
